STAGE ROUTES.

Stages leave the principal hotels for the un-

derground places at the hours named.

For Sarnia. Daily, at 8 a. m., and 2 p. m.

For London. Daily, at 2 p. m.

For Brantford. Daily, at 2 p. m.

For Toronto. Daily, at 2 p. m., with a

stop at Hamilton.

The stages arrive in Belleville about noon

each day.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 8.

Town and Vicinity.

DEDICATION.—The new University M. E.

Church is to be dedicated on Thursday,

Sept. 21st, at 10 o'clock. Dr. Jones and other

clergymen will conduct the service.

ARRIVED.—The steamship *Sardinia* is

announced as having passed Fox River

inwards at 10 o'clock this morning. This

is a remarkably quick passage.

YORKEITE.—Major Durham's second lec-

ture was equally as interesting as his first,

and proved to be highly acceptable to his

audience. It is probable that the Mayor

will at some future date deliver a lecture

before the Merchants Club, on the geological

features of Canada.

THE WATER SURVEY.—Prof. Bull's lec-

ture on this subject will be delivered in

the Town Hall to-night. The subject will

be treated in a thorough manner, and in-

formation will doubtless be given, the value

of which will be better appreciated at the

time of scarcity than at any other season.

GEOLOGICAL SURVEY.—A Montreal tele-

gram states that Mr. Whiteaves, will re-

ceive the appointment of Paleontologist to

the geological survey in place of the late

Mr. Bannister. The appointment will be

of great advantage to the Geological Com-

mission, of which Mr. Selwyn is the efficient

head.

CATTLE FOR ENGLAND.—The enterprise

of shipping beef cattle to the English mar-

ket is attaining to considerable proportions,

and dealers in this section are entering into

the venture with spirit. Mr. F. R. Ling-

wood will shortly ship forty-five head of

choice cattle to London. We trust that the

Mayor will find his enterprise so profitable as

to warrant future shipments.

HE MADE TRACKS.—The Trenton Courier

says: "One night last week Dr. Day saw a

light flash opposite his bedroom window

and discovered that a man had been at his

surgery window, and having taken the

clock, and unfurnished the shutters was re-

considering, when the Dr. gave him a shot

from his revolver, and the fellow 'made

tracks.'"

LOCAL.—The following local cases were

before the Courts in Toronto on the 6th:

Linton v. Johnson.—Demurrer per-

tainingly allowed. Maclean, Q. C. D.

Dicke v. Foster. Plaintiff—Wallbridge, Q. C.

D. C., moved absolute rule nisi for a new

trial. G. D. Dickson, counsel. Reserved.

Perry v. Miller.—Wallbridge, Q. C., allowed

a case to a rule nisi for a new trial.

Bethe, Q. C., contra. Reserved.

OFF FOR MONTREAL.—The *Whig* says:

"This morning the Young Men's Christian

Association excursion for Montreal was

real. There were seven passenger cars on

the train, besides baggage and smoking

cars. There were fully five hundred ex-

cursionists—a number sufficient to make

a great financial success. Q. D.

Dicke v. Foster. Plaintiff—Wallbridge, Q. C.

D. C., moved absolute rule nisi for a new

trial. G. D. Dickson, counsel. Reserved.

Perry v. Miller.—Wallbridge, Q. C., allowed

a case to a rule nisi for a new trial.

Bethe, Q. C., contra. Reserved.

A REMARKABLE YEAR.—Sixty years ago,

says an exchange, was "the year without

summer." Frost occurred in every month

of the year 1816. Ice formed in the middle

of May; snow fell to the depth of three

inches in the interior of New York, and

also in Massachusetts in June; ice was

formed to the thickness of common

window glass throughout New York on the

5th of July; Indian corn was so frozen

that the greater part was cut down and

AN EXAMINATION OF THE POTATO WITH A VIEW TO THE PROTECTION OF THE CULTIVATOR FROM THE LOSS OF HIS CROP.

It is a well known fact that the potato is one of the most valuable and nutritious of our food crops. It is also one of the most susceptible to the attacks of the potato beetle, which is a pest that has been doing much damage to the potato crop in this country.

The potato beetle is a small, green, spotted insect, which is found on the leaves of the potato plant. It is a voracious feeder, and will eat the leaves of the potato plant, and in some cases, the tubers themselves.

The potato beetle is a pest that has been doing much damage to the potato crop in this country. It is a small, green, spotted insect, which is found on the leaves of the potato plant.

The potato beetle is a pest that has been doing much damage to the potato crop in this country. It is a small, green, spotted insect, which is found on the leaves of the potato plant.

TREASURER'S SALE OF LANDS IN ARREARS FOR TAXES.

County of Hastings, N. Y.

To wit:

BY VIRTUE OF A WARRANT ISSUED

under the authority of the Board of Supervisors of the County of Hastings, and of the Seal of said County, bearing date the 2nd day of July, A. D. 1876, and to be directed and delivered, I, the undersigned, do hereby certify that the following lands have been sold to satisfy the taxes thereon for the years 1875 and 1876, and over and above the lands heretofore sold, and described, as being in the County of Hastings.

These are therefore to give notice that the arrears and costs are sooner paid, than the

Thursday, the Twelfth day of October, 1876.

Daily Intelligencer.

The New Pension List.

(From the Mail.)

The self-acting system of superannuation, which had been established by the Government, was handed over to the present Government with a surplus of fifty-two thousand dollars. Under an abuse by which he has turned it to the use of the American Cabinet transferred with the Superannuation Act had been the country from the 1st of January of this year to the 31st of December, 1875, through a very large number of the several Departments. The list of officers who have been superannuated, and the amount of their pensions, is as follows:—

The pension list, which has been created by Mr. Mackenzie, has been handed over to the present Government with a surplus of fifty-two thousand dollars. Under an abuse by which he has turned it to the use of the American Cabinet transferred with the Superannuation Act had been the country from the 1st of January of this year to the 31st of December, 1875, through a very large number of the several Departments. The list of officers who have been superannuated, and the amount of their pensions, is as follows:—

Daily Intelligence.

British and Foreign Notes.

The death is recorded of a woman at

Stornoway at the age of 113 years.

The Good Templars of England form a

terrace army of 100,000 members.

Chester Cathedral has been re-opened, after

repair, at a cost of £70,000.

A mining school has been added to the

University of Lima.

The report of the death of Mado Toqueville

is contradicted.

The project of turning the ruins of the

baths of Diocletian into a palace of the fine

arts is strongly opposed by the Vatican.

An expedition is about to be despatched, under

the auspices of the Dutch Geographical

Society, to explore the interior of

Sumatra.

The Sailors' Home at Antwerp, for the

erecting of which considerable sums were

subscribed in England and America, has

been opened.

The number of lunatics in England and

Wales on the 1st of January last was 68,619,

being 1,123 more than in the previous

year.

It has been stated that the Antonia Pa-

lacio at Malta has been taken from Novem-

ber next for the residence of the Duchess

of Edinburgh.

It is intended to erect a statue to Mr.

Bright at Manchester, and many of his

friends have already been asked to con-

tribute to the fund for defraying expenses.

Joseph Pitman, the last survivor of Na-

poleon's veterans at St. Helena, has died

in England in his ninety-third year, hav-

ing been a pensioner for fifty years.

London is now supplied with "Marseilles

butter" in great quantities. A large steam

candle factory at Marseilles, equals in ap-

pearance the finest engine or furnace, and

keeps well up to the mark in the produc-

tion of the candle which it manufactures.

The National Society for the Promotion

of the Education of the Poor in the Princi-

ples of the Established Church, has re-

ceived a donation of 500 guineas from the

Corporation of the City of London.

A lady residing in the vicinity of Bir-

mingham has signified her intention of

giving the sum of £10,000 for the purpose

of founding an art school in connection

with the free libraries at Sheffield.

There has been a serious riot on the oc-

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 12.

LIGHTHOUSES.—Two lighthouses have been erected by the Government on the coast of the East Port of the entrance to Keweenaw Harbor, Lake Erie, and two at Keweenaw, Ontario, and were put in operation of the 7th Sept. inst.

VICTORIA RAILWAY.—The travellers of the Victoria Railway are now about to commence beyond Fenelon Falls and the halting gang will reach London in a week or ten days. The section from there to the Falls will be fully ballasted.

EMIGRANTS.—One hundred and fifty English, 70 Irish, 50 Scotch, 500 Memorialists and 410 Indians, who are returning to the month of August, which is a great falling off on the same month last year.

MANITOBA CROPS.—The Montreal Gazette says: "From a private letter, from Winnipeg, we are glad to learn that the crops have turned out remarkably well, and that the prospects of business in the North-west are exceedingly cheering."

OFFICIAL TIME TABLES.—This handy travellers' guide, which contains the latest and most complete information, has been received, the number being up being the issue for September. Price 25cts. Published by the National Railway Publication Company, No. 233 South Fifth Street, Philadelphia.

WHAT THEY EXPECT FROM AN EDITOR.—The Ottawa says country subscribers and sometimes city ones too, very often ask editors to do the most amusing favors. The following letter from a country subscriber received to-day is a fair sample:—

"Will you be so kind as to write and let me know what you can send me a wig for with half hair and curly, light brown."

THE EASTERN QUESTION.—A cable telegram from London, Sept. 11th, says: Lord Derby to-day received a deputation on the Eastern question. In reply to an address he said he considered the Eastern question had become more complicated by reason of the late war. Speaking for the Government he said he could not entertain any proposition to reverse the policy pursued by England for the last sixty years.

THE WINDMILL TEAM.—The following are the twenty successful competitors in the Windmill Match of yesterday, and will form the Canadian Team to England next year.—Sergeant J. Mitchell, Capt. Mitchell, Capt. Gibson, Sergeant T. Mitchell, Gunner Macdonald, Private Morrison, Lieut. Macdonald, Private Marshall, Capt. Fathgill, and Capt. Reardon, from Ontario; Capt. B. J. Capt. Thomas, Private Shaw, Lieut. Balfour, Corp. Vaughan, Private Ross, and Sergeant Mathews, from Quebec; and Corp. Shivers, Lieut. Hart, and Sergeant Hunter, from New Brunswick. The shooting this season was much better than that of last year.

THE PROVINCIAL EXHIBITION.—A despatch from Philadelphia says:—The American Association, James Young, M. P., President of the Association, of Mechanics' Institutes of Ontario, Rev. R. Burnett, of the Fruit Growers Association, are here as a deputation representing the Provincial Agricultural Association, and have called on the Commissioners of all the British Colonies, Germany, France, Brazil, China, Japan, Italy, and other countries, and extended to them a cordial invitation to visit the Provincial Exhibition at Hamilton next week. Several are likely to accept the invitation.

MILITARY COLLECTOR.—Provision has been made for a competitive examination in each Military District of the Dominion, of candidates for admission to the Military College, Kingston, to commence on Tuesday, the 26th of October 1876. The limits of age are from 15 to 20, the number of vacancies to be competed for 35, viz, three from each Military District, but if any of the Military Districts fail to furnish the number of candidates with necessary certificates allotted to it, the vacancies will be awarded to candidates, in excess of three, who obtain certificates in the same way that they applied to the examination held in May last, except that French will be a voluntary subject. Candidates who are examined in German or Latin, may, if they so desire, be examined in either English or French, at their own preference. The translations into German may be from either English or French into German. In other subjects the answers in writing at the examination may be either in the English or French language. The minimum number of marks required to be obtained in each compulsory subject will be forty per cent. Candidates are recommended to bring their applications in writing to the Adjutant-General, Ottawa, accompanied by certificates as to age and moral character at least one month before the date fixed for the examination.

News Condensed.

—The Sioux are reported to be anxious for peace.

—Gen. Sherman has started West to visit the forts.

—A fatal disease has broken out among the cattle at Hanley, Pa.

—A severe storm was observed as a civil holiday at Boykington.

—The stone-cutter strike at the Quakers Bridge, Wabash Canal, is over.

—Molter, when arrested at St. Louis, had 500 pounds of gold on him.

—Reports from Philadelphia say that Canadian troops are on the march to Montreal.

—Lieut. Cameron, the African explorer, has been made a commander in the British army.

—The Cheyenne Agency building has been swept away by a flood, and all records and papers lost.

—The government courier who left Fort Laramie with dispatches for Crook has been driven back by the Indians.

—The appearance of the Maine State election, held yesterday, will result in the favor of the Republicans.

—The supposed St. Hyacinthe incendiaries have been taken into custody. The citizens are inclined to have recourse to lynch law.

—Political disturbances are taking place in the Colombian Republic, and the disruption of the country is apprehended.

—Arrangements have been made for the cheap transportation of wheat from Manitoba to the Atlantic coast.

—Mr. Wilson, Customs Officer at Bradford, was seriously injured yesterday afternoon by being jammed between two cars.

—The prospects of the Servians appear to be brighter than they were a week ago, and there is no abatement of military ardor amongst them.

—The residence of the Peruvian President has been attacked by rioters, who were repulsed by the troops with some loss. Callao and Lima have been visited by an earthquake.

—A brakeman named Rainforth, from Port Hope, was killed at Trenton station last night. It is supposed he fell off a freight car. The body was found in the morning horribly mangled.

—Hamilton wants to know why its coal dealers charge \$6.25 per ton for coal that the Toronto dealers sell for \$4.50. This is a good time for the latter to ask questions.

—The Kingston News says: "It is said that William Ross, a well-known citizen of Montreal, was engaged to be married to a person residing near the Grand Trunk Depot, and that the bride-to-be was to have been escorted to-day. This makes the case doubly sad."

—The Provincial Exhibition.

ENTRIES OF LIVE STOCK AND POULTRY.

The thirty-first Provincial Exhibition, which opens at Hamilton on the 18th inst., promises to be unusually successful, if the measure of success may be indicated by the number of entries, which are now completed in the live stock and poultry classes. The number of entries in the live stock class is 1,243, entries over those made in these departments last year at Ottawa, the figures being 3,247 as against 2,000 in 1875. As will be seen by the appended comparison, the entries in the live stock class are, in almost every instance, very great, while on the other hand there is a slight decrease in the cattle class.

The minimum number of marks required to be obtained in each compulsory subject will be forty per cent. Candidates are recommended to bring their applications in writing to the Adjutant-General, Ottawa, accompanied by certificates as to age and moral character at least one month before the date fixed for the examination.

WANTED.

WE WANT reliable, energetic canvassing agents in every town in the Dominion for the new Illustrated History of the Dominion of Canada. This work is truly magnificent, containing over 2,000 double column maps, and is a masterpiece of engraving. The work is published in Paris, on a plan which makes it welcome to every English reading family. To energetic young men or ladies, who are willing to work for their own advancement, and who are not afraid of the work of the press, we offer a very liberal salary, and a good opportunity for advancement. The work is being manufactured at a cost of over \$20,000 for the plates, by the publishing house of the Dominion of Canada, and is a grand opportunity for good teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over \$20,000 for the plates, by the publishing house of the Dominion of Canada, and is a grand opportunity for good teachers to make more than double their salaries without interfering with their professional duties. HAZEN R. BROWN & CO.,

25 and 26 St. Francis Xavier, Quebec.

FROM QUEBEC.

THE REVEIL.

Ploughing and Digging Match.

SEVERE ACCIDENT.

BASE ROBBERY.

THE OUTRAGE.

QUEBEC, Sept. 12.—It is stated that Mr. Buis will shortly transfer the publication of the front from Quebec to Montreal.

The annual ploughing and digging match of the City of Quebec Agricultural Society, will take place on the 4th October.

Yesterday morning Pauline Cote, forever known in Rochelle's shoe factory, received severe injuries to her arms and face from being caught by a belt in a revolving wheel.

Yesterday a poor woman, 80 years of age, who had just landed from the steamship Texas, was robbed of her passage money by a scoundrel who represented himself as a Canadian.

The citizens are inclined to have recourse to lynch law.

Political disturbances are taking place in the Colombian Republic, and the disruption of the country is apprehended.

Arrangements have been made for the cheap transportation of wheat from Manitoba to the Atlantic coast.

Mr. Wilson, Customs Officer at Bradford, was seriously injured yesterday afternoon by being jammed between two cars.

The prospects of the Servians appear to be brighter than they were a week ago, and there is no abatement of military ardor amongst them.

The residence of the Peruvian President has been attacked by rioters, who were repulsed by the troops with some loss. Callao and Lima have been visited by an earthquake.

A brakeman named Rainforth, from Port Hope, was killed at Trenton station last night. It is supposed he fell off a freight car. The body was found in the morning horribly mangled.

Hamilton wants to know why its coal dealers charge \$6.25 per ton for coal that the Toronto dealers sell for \$4.50. This is a good time for the latter to ask questions.

The Kingston News says: "It is said that William Ross, a well-known citizen of Montreal, was engaged to be married to a person residing near the Grand Trunk Depot, and that the bride-to-be was to have been escorted to-day. This makes the case doubly sad."

CENTENNIAL!

NO CHANGES!

RATES OF FARE LOWER THAN BY ANY OTHER ROUTE

THE FAST STEAMER OF THE

Bay of Quinte and Oswego Navigation Company,

HAS commenced its regular trips.

The new and magnificent steamer

OSWEGO BELLE.

(CAPTAIN ELY.)

has been fitted up with a special view to the

comfort and convenience of passengers. Her

Saloon is especially furnished, and the state-

rooms and berths unsurpassed. The steamer

Sails on Mondays, Wednesdays and Saturdays

from Belleville at 6:30 a.m., for Kingston,

Belleville, and all Bay Ports.

KINCARDINE.

(CAPTAIN MORRIS.)

has been entirely refitted and refurnished, and

is a very rapid first-class steamer. Every provision

paid to the requirements of passengers.

TIME TABLE.

"Oswego Belle."

Leaves Belleville every Tuesday and Friday

at 1 p.m. Mill Point at 2:30 p.m. Pictou at

4 p.m. Kingston, 10 p.m. Arriving at

Oswego in time to make close connections with

all morning trains East, West and South.

RETURNS—Leaves Oswego every Monday

and Wednesday, at 6:30 a.m., for Kingston,

Belleville, and all Bay Ports.

On Saturdays runs an Excursion Trip to

Kingston, Thousand Islands and Brockville,

leaving Oswego on the arrival of the late train,

and returning, leaving Kingston at 1 o'clock

MONDAY morning, reaching Oswego in time

for all early trains.

"Kincardine."

Leaves Belleville every Saturday night at 8

o'clock, calling at Mill Point, Pictou and King-

ston, remaining overnight. On Sundays

leaves Kingston at 7 o'clock, arriving at

Oswego at 10 p.m.

Leaves Oswego on Mondays at 6:30 a.m.,

for Toronto and Hamilton, reaching Toronto

Tuesday morning, and Hamilton the following

day.

RETURNS—Leaves Hamilton on Wednes-

day morning, reaching Toronto on Thursday

morning, and arriving in Oswego on Friday

morning.

On Fridays, leaves Oswego at 6:30 p.m. for

Kingston, Belleville, and all Bay Ports.

The "Oswego Belle" is open to engagement

for Excursion parties, and all Bay ports, and

all Bay ports, and all Bay ports, and all Bay

ports, and all Bay ports, and all Bay ports,

and all Bay ports, and all Bay ports, and

Wolves in Russia.

STATISTICS OF THE AMOUNT OF DAMAGE

DOONE-STRENGTH OF THE BEARS-TWO

RUSSIAN PEOPLE DESTROYED BY 1875-

A SUCCESSFUL CALAMITY.

The London Times says: "A most

curious and interesting pamphlet, which

has been published at St. Petersburg, as an

appendix to the Government official paper,

the *Prosvetitel'skiy Vestnik*, contains a

statistical account of the amount of damage done

by wolves in Russia, with remarks on the

habits of these destructive animals and on

the means of destroying them. The

amount of property destroyed by wolves

according to the data given, is something

appalling. In the year 1875, for example,

one Government, that of Volyn, com-

prising an area of 354,000 square ver-

sts, they killed 14,000 head of large cattle

and 14,000 head of small in the Russian Gov-

ernment, in a space of only 66,000 square

versts, they killed 5,000 large and 20,000

small, of an aggregate value of 254,000

roubles, the population of this Govern-

ment being only 1,715,000. In the St.

Petersburg Government the losses are

smaller, but even there in the same year

property was destroyed by wolves to the

extent of 64,000 roubles. And these figures

are taken at a very moderate estimate,

taking only thirty roubles all round for

large cattle and four roubles for small

cattle, such as sheep and goats. In the

five Russian Governments, exclusive of the

Baltic Provinces and Poland, 741,000 head

of cattle were destroyed last year, and

lost a loss to the country of over 7,500,000

roubles, or more than a million sterling.

Russia is a thinly populated country, and

people are above the average of other

countries, and the loss of property is

striking when considered in reference to

area. Putting aside eight out of the forty-

five Governments, the loss on the remain-

ing thirty-eight amounts to three copecks

per every desyatine of 27 acres. The report

of the Government is, however, not over-

ly cautious, and it is probable that the

actual loss is much greater. It is not

without reason that the wolf is called the

enemy of the human race. It is not

without reason that the wolf is called the

enemy of the human race. It is not

without reason that the wolf is called the

enemy of the human race. It is not

without reason that the wolf is called the

enemy of the human race. It is not

without reason that the wolf is called the

John B. Gough at Home. MR. GOUGH TWENTY YEARS AGO—EARLY DIFFICULTIES—TEMPERANCE A PASSION—THE ORIGIN AT HOME.

Twenty years ago the most popular man on the platform of Home and America was John B. Gough. Twenty years ago: How the time flies! I was then a boy, a comely sort of being, just at the age and in the mood to be set on fire by an impassioned, fervent orator.

THE TEMPERANCE PROPAGANDA. Mr. Gough was still quite a young man when he began his life. He was a comely sort of being, just at the age and in the mood to be set on fire by an impassioned, fervent orator.

SUNDAY READING. Sinners, Believe You are Lost. But you say, "I do not feel that."

BELLEVILLE, SATURDAY, SEPT. 16.
HURRICANE.—The West India islands have been visited by a series of severe hurricanes, which were especially disastrous in Porto Rico and Jamaica. In the latter island all the telegraph lines are down.

LOUIS DUFFIN.—A special telegram from Victoria, B. C., says that His Excellency the Governor General arrived down from Kamloops on the night of the 13th inst., and leaves for San Francisco on the 21st inst.

THE SEA SERPENT AT BROCKVILLE.—The Monitor says either an enormous snake or a huge seal has been disappearing itself frequently lately in the St. Lawrence opposite Brockville. It is represented as a nearly twenty foot long.

THE LUMBER TRADE.—An Ottawa report says:—Large numbers of logs are being engaged for the shanties, and an impression prevails that the usual amount will be cut this season. Wages are slightly advanced from last year's rates.

RELIGIOUS TOLERANCE.—It is stated that the British and German Governments will unite in addressing a communication to the Spanish Government on the subject of the breach of the latter's engagements respecting religious tolerance.

CENTENNIAL STATISTICS.—The value of the Centennial buildings is at \$20,849. A large proportion of the exhibits, which are not taken into account, are not of the same value, though probably they could not be purchased for all that the rest of the exhibition is worth.

STILL AHEAD.—The Kingston News says:—At the Roman Catholic Bazaar at Belleville yesterday, at two o'clock, the police for the gold-banded cane stood for the first time, and the crowd was so large that the Bazaar Committee could not be purchased for all that the rest of the exhibition is worth.

INDIAN TREATY.—The Ottawa Free Press says:—A telegram was received to-day from Governor Morris stating that he had completed a second treaty with the Indians in the district whose center is Fort Pitt. This completes final dealings with all the Indians of the North West, excepting the Blackfeet, who will be dealt with next spring.

THE INDIAN CAMPAIGN.—The campaign against the Sioux has come to an end, home without having accomplished a single purpose of the expedition, and after having suffered the loss of one-quarter of the number. The order to winter a regiment of cavalry on the Yellowstone has been countermanded.

RAILWAY ACCIDENT.—A London telegram says:—A railway accident occurred on the G. W. R. this evening near Chatham, resulting in injury to three ladies sitting in a parlor car. No. 8 of the train was broken and the car fell against a freight car on a siding, knocking down a portion over the ladies, who were all from the States. They were brought on to this city and cared for at the Tremont.

THE CENTRAL FAIR.—The Kingston News says:—The preparations for holding the Central Fair at Belleville, which the Crystal Palace has been thoroughly renovated and repaired, and the pens for stock are cleaned out and fixed up. The prospects of a successful enterprise are good, and already a large number of entries have been made, several of them being from a distance. The Secretary expects that the number of entries will exceed that of last year, and that altogether the Central Fair may be considered a settled fact.

ARMISTICE REFUSED.—The Porte declines to grant an armistice, but is prepared to accept a peace upon the following conditions:—The re-occupation by Turkish troops of the Serbian fortresses so held previous to 1857 and the demolition of fortresses since erected; the investiture of Princes Milan at Constantinople; the recognition of the Serbian effective army to 10,000 men and three batteries; the construction of a railway across Servia. The negotiation of a peace will be left in the hands of the Powers.

ATTENDANCE AT THE CENTENNIAL.—Since the cool weather began, the number of visitors to the Centennial has largely increased, and the interest in it widens as time goes less. It is not supposed that this Exhibition, which is estimated to cost \$80,000,000, will be the most successful of the international exhibitions have been money-making concerns, and that at Vienna was a ruinous failure. But, contrary to expectation, and in spite of the predictions to the contrary, the Centennial is paying its expenses handsomely, and now promises to yield something of a dividend. The people are flocking to it in crowds, and the vast buildings seem to be always well filled.

THE LOCAL DESS REMOVED.—The costume so long worn by the ladies and boys in England, and which has been the wonder of beholders from time immemorial, bids fair to be interfered with in a somewhat radical manner. The *Belleville Journal* tells us that a few days since the Justice Field appeared on the bench of Vice-Chancellor Mallin's Court in an ordinary morning costume, and the bar, or some members of it, presented themselves in extraordinary costume, one of the judges signing a motion in a blue rose jacket.

The Union Show.

PRIZE LIST.

STAGE ROUTES.

Stages leave the principal hotels at the usual hours for the following places:
For Springfield, daily, at 8 a. m., and 2 p. m.
For Malone, daily, at 7 a. m., and 2 p. m.
For Belvidere, Tuesday, daily, at 2 p. m.
For Thompson, daily, at 2 p. m.
Stages arrive in Belleville about noon each day.

RAIN AND WIND STORM.

The expected rain, arrived yesterday afternoon, heavy from clouds rolling along before a strong easterly wind during the forenoon, and rain commencing to descend shortly after dark. The fall was steady until dark, when the wind began to rise, and during the night a miniature hurricane prevailed, and rain fell in a perfect torrent for several hours. The drought has been effectively dispelled for the time being, and doubtless the bush fire have been extinguished, both of which results afford ample cause for rejoicing.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 21.

Town and Vicinity.

QUITS.—The return match between upper town and lower town will be played to-morrow, commencing at 2:30 o'clock, p. m.

THE DEAF AND DUMB.—There are now 209 pupils in the Institution for the Deaf and Dumb, a considerable increase on the number present at the same date last year.

VILEY.—Mr. John R. Viley, of Lexington, Kentucky, breeder of Mr. Viley's handsome thoroughbred horse "Lloyd," is one of the judges of horses at the Centennial.

ST. JOHN'S CHURCH, WEST BELLEVILLE.—A well-attended and cheerful meeting was held in the Church last evening, and the ladies of the church were organized for the stipend of a clergyman. A deputation was appointed to wait on the Rev. Mr. Forster to request him to accept the incumbency.

THE GRAND JUNCTION.—We have been informed that the Chancery Suit of \$10,000 against the Grand Junction Railway Company, now in the Supreme Court, is in a fair way of being amicably settled, and that when this difficulty is removed, the Company will at once proceed with the construction of the road.

KINGSTON RIFLE MATCHES.—Corporal W. Hilton, of the 49th, was the winner of a small prize in each of the first three matches of the Kingston Rifle Association, though not in any case standing amongst the first six. The scores were good, considering the weather, which was not favorable, the light being bad.

FAIR IN RAYDON.—A free fair, for the sale of horses, cattle and other stock, is to be held at the Town Hall, Raydon, on Saturday, October 14th. This fair will, on the whole, be a good opportunity of disposing of their fatstock, as Mr. E. Small and other buyers from Belleville, and several other buyers from a distance, are expected to be present.

DITHERIA AT NANAN.—The Kingston News says: "A number of small children in Nanapan are down with the Diphtheria, which seems to be a sort of epidemic, and almost every case proves fatal. Three were buried on Sunday, and others are down with no hopes of recovery. Parents are sending their children out of town."

PROVINCIAL EXHIBITION.—The weather was fine yesterday and the attendance very large. The Judges' awards, so far as they have gone, are published; amongst them we notice among the horses a first prize in its class to a yearling filly by Mr. Fearney's "Slap Bang," out of a carriage mare, in implements, &c., a second prize to G. D. Armstrong, Belleville, for a carriage mill and press. It was decided to hold the next exhibition in London.

MEETING TO-NIGHT.—The adjourned meeting of the Executive Committee of the fair falls will be held at Hanbly's this evening at 8 o'clock. A cordial invitation is extended to all who take an interest in the fair, as now that it is determined to be held at Hanbly's this evening at 8 o'clock. A cordial invitation is extended to all who take an interest in the fair, as now that it is determined to be held at Hanbly's this evening at 8 o'clock.

PRESENTATION.—On Saturday last, the friends of Mr. H. H. Crosby, lately freight clerk at the Grand Trunk Station here, met and presented him with a watch and an address. The presentation was made by Messrs. Davis, Roy, and Gunn, on behalf of the other employees at the Station here. Mr. Crosby was three years and six months in the time was spent at the Grand Trunk property, and has been a most successful and efficient employee and the public. He left on Monday for Stratford, at which place he will fill a more lucrative position in the Company's service. Mr. Hodgson, of Montreal, who succeeds Mr. Crosby, is highly spoken of.

THE 48TH AT CREEDMOOR.—The team of the 48th (Orange regiment) was expected to do well in the State matches at Creedmoor, but they surpassed expectation on Monday by winning the grand prize of the meeting—a Gatling gun worth \$3,000, which it was twice before becoming the winner property. The conditions were: Distance 500 yds., seven rounds, military rifle. Highest possible score, 420. The score made was as follows: J. S. Barton, 38; L. E. Barton, 30; C. A. Barton, 29; J. L. Wood, 30; C. W. Coe, 24; C. W. Coe, 24; G. White, 27; J. P. Hall, 20; A. C. Cropper, 20; G. W. Post, 19; A. Curtis, 25; C. V. Chilton, 26; J. A. Durr, 25. Last year the Orange regiment was the winner at Creedmoor, we believe, by a score of 317, half their target, which is certainly something to be proud over. We heartily

MORNING DESPATCHES.

TWEED'S ARREST.

A HITCH.

New York, Sept. 21.—A special despatch from Madrid states, having that the commander of the United States ship "Franklin,"

homeward bound, contracts to deliver W. M. Wood to the American authorities, and to send him back to Gen. Jewell, the officer for the United States ship "Franklin," who is now at Gibraltar, proceeds to take Tweed, who is now closely confined in the fortress.

AMERICAN.

Robbery and Murder.

ASSAULTING AN EDITOR.

THE RESULT.

TILDEN'S INCOME.

WIFE MURDER.

CHICAGO, Sept. 21.—A special from DeKalb, says: O. P. Lard, a Swedish jeweller, about 38 years old, was discovered in his room this morning with his head cut and jammed to a jelly with an axe. The safe and drawers were open, and the jeweller was all disturbed, but none was taken.

NEW ORLEANS, Sept. 21.—Mr. Lemuel, editor of the *Boz*, was assaulted last night in the editorial room by Alfred Burgess, who refused to pay for the retraction of charges, calling him a spy, &c. Mr. Roman, city editor of the *Boz*, entering the room during the attack, fired at Burgess, the ball passing through the latter's shoulder. The wound was pronounced not dangerous.

NEW YORK, Sept. 21.—Adam L. Hewitt, Chairman of the National Democratic Committee, in a letter to the public under date of the 20th instant, refers to charges which have been made,—Gov. Tilden made a false return of his income for 1862—and states he addressed a note to James F. Simons, who was the confidential law clerk of Governor Tilden during the whole period in which the law imposing an income tax was in force, asking him to examine the private account of Governor Tilden during the year 1862, published by the *Times*, and furnish him with such explanation in regard thereto as his necessary familiarity with the details would enable him to supply.

His answer, which is published in the public, showing that of thirteen private income accounts amounting to \$110,000, eleven items, amounting to \$84,000, are wholly correct, while the other two, only one of \$11,000 is entirely true, and the second of \$25,000 is only partially true. Both letters are published in all the morning papers. As an advertisement in these documents, the *Times* publishes a letter to the effect that it hears from trustworthy sources that the Internal revenue commissioner, Ross, has asked the U. S. District Attorney to bring a suit against Governor Tilden on his income tax return for 1862.

NEW YORK, Sept. 21.—Last evening S. Chatterton, of No. 58 North 2d street, Williamsburg, killed his wife by beating and kicking her to death.

Two thousand dollars was yesterday sent to the Savannah Relief Association from the Chamber of Commerce, and contributions amounting to \$5,781 are acknowledged from other sources.

It is stated that arrangements have been made by the New York authorities for the return of W. J. Sharkey, the condemned murderer, in the ship that is being Wm. M. Tweed to this city. The Spanish police for several weeks have been on the watch for him, and all his movements are known to them.

NEW YORK, Sept. 21.—Nineteen minutes before three o'clock on Sunday afternoon being high tide, has been fixed upon as the time for exploding the mine under Hell Gate.

The Bond Street Savings Bank has suspended business in obedience to an order from Judge Landis, who has ordered the bank to be closed.

CLEVELAND, O., Sept. 21.—The Irish-Catholic Central Union of the United States assembled in Convention in this city yesterday.

LOUISVILLE, Sept. 21.—The correspondent of the *Times* at Belgrade, in a despatch to this paper, says he doubts whether it is possible to ignore Prince Milan's proclamation as king, as the prince has made a public appearance with General Tchernayeff and the Russian army.

The correspondent also says that Serbia now believes in victory, and I must say this belief is not surprising.

The Serbian Morava army occupies a strong position, forming a semi-circle from Alexinatz and Deligrad around to Dunes and Vukli. The Turkish army is more concentrated, but as it is in a valley, it is liable to the right and left of the Serbian position, the Turks would not have much chance of advancing further. It is also ascertained that the Turkish army is in a valley, it is liable to the right and left of the Serbian position, the Turks would not have much chance of advancing further.

PARIS, Sept. 11.—*Le Temps* to-day says the Duc Des Cazes, Minister of Foreign Affairs, and the Turkish Ambassador, had an interview yesterday. Communications were then exchanged which seem to show that the chances for an early peace are very substantial. There is very evident good will on all sides.

LOUISVILLE, Sept. 21.—The Delgado correspondent of the *News* telegraphs that for a fortnight, as follows: If the armistice were for a fortnight, the Turkish army would be in a position to compel the Turks to evacuate their position.

A despatch to the *News* from Vienna says that the Austrian Ambassador at Constantinople is negotiating relative to the condition of peace between the Porte and Montenegro, in view of obtaining the cession from the Porte of the city of Scutari.

QUEENSTOWN, Sept. 21.—Arrived out, the steamship *Italy*, from New York.

MONTREAL, Sept. 21.—A strange and fatal accident to a horse, named "Cattle," in Wayne county, causing much alarm. The cattle are infected by a singular tick, which buries deep into the skin of the creature. In

Belleville, Sept. 21.—The *Corinthian* is off the beach. She left for Colong last night. She is pretty badly damaged.

LINEN GLACE.

It is a scientific combination of several of the best articles known for laundry use. Combines readily with the starch. Makes ironing easy by preventing the iron sticking. Gives to all fabrics a peppy finish. Prevents blistering. Can be used in either hot or cold starch. It is invaluable in doing up all thin goods, such as Lawn Dresses, Mullins, Cambrics, Laces, etc.—increases the stiffness of the garments.

Daily Intelligencer.

A Terrible Scene.

One of the most exciting scenes ever witnessed in the history of the city, took place yesterday afternoon.

A lady with a little child in her arms deliberately jumped into the river from the tower, wall at Prospect Park, and but for the providential interference of a huckster, would have succeeded in her design.

It was a lady named Mrs. J. M. Smith, who was sitting on the tower, wall at Prospect Park, and but for the providential interference of a huckster, would have succeeded in her design.

It was a lady named Mrs. J. M. Smith, who was sitting on the tower, wall at Prospect Park, and but for the providential interference of a huckster, would have succeeded in her design.

AUCTION SALE.

UNDER and by virtue of a power of sale contained in a mortgage and assignment thereof (which will be produced on the day of sale), there will be sold

BY PUBLIC AUCTION, IN THE COURT HOUSE, in the Town of BELLEVILLE,

Saturday the Thirtieth day of September, A.D. 1876,

At the hour of twelve o'clock, noon, the following property:

LOT NUMBER EIGHTEEN on the North side of MOIRA STREET, east side of Purdy Street and west side of Wainwright road, and which said Lot may be better known by reference to a plan of lots laid out on part of lot number ten in the first concession of the Township of Thurlow and County of Hastings, in the Town of Belleville, and which plan was registered in the Registry Office of the County of Hastings, on the twenty-fourth day of January, A.D. 1872.

The Lot comprises about one acre and a half of land, and is bounded by the following parties:

FIRST CLASS DWELLING HOUSE, with

S. M. PETTINGILL & CO.,
37 PARK ROW, NEW YORK.

GEO. P. ROWELL & CO.,
100 N. 2ND ST., NEW YORK.

WE sell only Agents in that city, and are
entirely unconnected with advertising at
lower rates.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 27.
Wholesale Fabrications.

It will be remembered that an attempt was made to make capital out of the fact that on the occasion of the Conservative demonstration held in Belleville, the Public Schools were closed, the Chairman of the Board being held responsible therefor by a certain class of grumblers. At the meeting of the Board of Education held the evening after the trial, and the many, in answer to some queries stated that he had not given permission to have the Schools closed, nor had he been asked permission, but that the fact of the Schools being closed was a matter of course, and he would have given his consent had a similar demonstration been held in honor of Mr. Mackenzie and his friends. He said further that no teacher could be expected to keep his scholars together on an occasion like that when four or five bands of music were parading the streets, and the Town was gaily decorated in holiday attire, and all alive with the excitement caused by the immense concourse of people flocking into the town on all quarters. All the members of the Board took the same view—Grit and Conservative alike.

But the magnitude of the Demonstration was so far beyond any of similar character—its influence upon the country was so great—as to far transcend any of the Grit political demonstrations of the kind held in Canada, that it was deemed necessary in Grit circles to run down the affair, and try and make it look as insignificant as possible. And this is the reason why so much attention has been directed to the demonstration by the Grit journals. This is the reason why they have attempted to belittle the affair. This is why they have represented that the great mass of the people who were there that day were Reformers, and this is why they charge that the public schools were dismissed to swell the crowd.

One of the organists, the Kingston *Whig*—about as unscrupulous as any of them—had the following reference to the affair in its local column a few days ago:

"The Belleville teachers and scholars had a holiday on Tuesday and went to see Sir John. The children's parents were very anxious to see the demonstration, and when the affair was asked at a meeting of the school board by whom the schools should be dismissed, the answer was given that the schools should be dismissed themselves. The scholars must be given a day of latitude in Belleville, and Mr. A. Shepard is chairman of the Belleville School Trustees, and he is also the editor of the *Intelligencer*, and perhaps that accounts for the school children being turned into the streets to swell the ranks of the Grit army."

The *Whig* admits that it was stated at the Board that the schools should be dismissed, but immediately after tries to fasten the responsibility of the schools being closed upon the Chairman of the Board, and accounts for the closing of the Schools in the following manner:

"Mr. W. A. Shepard is Chairman of the Belleville School Trustees, and he is also editor of the *Intelligencer*, and perhaps that accounts for the school children being turned into the streets to swell the ranks of the Grit army."

But its prototype in slander and hypocrisy, the London *Advertiser*, goes farther, and accounts for the closing of the Schools in the following manner:

"Mr. W. A. Shepard is Chairman of the Belleville School Trustees, and he is also editor of the *Intelligencer*, and perhaps that accounts for the school children being turned into the streets to swell the ranks of the Grit army."

There is no missing matters here. The charge is boldly made, and the public of the schools were dismissed for the purpose of swelling the crowd at the Conservative picnic. It is this not "economizing the truth," or rather, most mendacious lying, we know not what it is.

The *Advertiser's* bold statement made the way clear for another journalist of the same stamp up west to "say his little word." And here it is:

"Our Tory friends deserve credit for their exertions to secure a good attendance at the recent bon-fêtes. In Oxford they invoked the assistance of the ladies, young and old, to swell the ranks of the Tories, and in Belleville they turned into the streets to swell the ranks of the Tories."

Here it is made plain enough, so that the veriest blockhead can comprehend. The Tory editor is Chairman of the Board, and he turns the children into the streets to swell the crowd, and this is why the crowd was so immense! The whole thing is thus put in a nutshell.

So the fact is demonstrated here is a bitter pill for the Grit party that the Province to swallow. It was of such mammoth proportions, far outstripping anything of the kind ever before held in Canada—it showed how the Grit party was party was to its trial and trusty leaders—it was such a striking rebuke to the calumnies of the purist party—it afforded such unmistakable and conclusive evidence of the great Conservative majority—that it is little wonder the Grit party felt so irritated and chagrined. It would have been to their credit, however, if they had refrained from wholesale fabrications in their efforts to belittle the demonstration.

CANADA AT THE CENTENNIAL.—A despatch from Philadelphia says:—"The judgment of cattle took place today. From appearances Canada will take first prize for fat oxen, heifers, and yearlings; and a very close match with Harford. If Canada does not get the first prize, it is not commended. The shorthorn judging is not completed and cannot be forecast."

Railway Accidents.

A return of the railway accidents of the past year has been lately made in England, according to which it appears that there has been a satisfactory diminution of casualties as compared with previous years. The total number of persons killed during the year was 1,200, and the number injured 87,365. Of these 114 killed and 1,306 injured were passengers, and 760 and 3,181 injured were in the employ of the railway companies or contractors. The remainder were trespassers, suicides, &c. The total number of passenger journeys is estimated at 507,000,000, or an increase of 29,000,000 over the previous year. A proportion of passengers killed and injured from all causes was 1 in 3,783,800 killed, and 1 in 242,302 injured. The proportion of accidents sustained by passengers from causes beyond their own control was much smaller, being, in 1875, 1 in 29,823,000 killed, and 1 in 418,300 injured. In 1874, a year in which many accidents occurred, the ratio of the class of casual loss was as high as 1 in 5,656,284 killed, and 1 in 293,243 injured, while the average proportion of the preceding four years was 1 in 11,196,570 killed, and 1 in 388,323 injured. The return of 1875 therefore shows a very considerable decrease of preventable accidents, not only compared with the phenomenal year preceding, but with the previous period of four years. The number of railway fatalities in Great Britain is estimated at about 280,000, and the proportion killed during the year was 1 in 366. The total number of train accidents was 161, of which 100 were owing to collisions.

Fires in August.

The total loss by fires in Canada and the United States during August, and the losses sustained by the companies were larger than in July. The aggregate for both countries, according to the *Insurance Chronicle* of last week, was \$6,300,800, against \$5,497,100 in July, and \$8,888,957 in August of 1875. The companies lost \$3,018,000; while in July the loss was \$2,831,600, and in August of last year \$2,471,425. The special loss amounted to \$4,648,300, as compared with \$4,305,100 in July, and \$2,435,500 in August a year back. By the destruction of the special the companies lost \$2,809,400 in July the loss was \$1,871,100, and in August, 1875, \$1,487,300. The number of fires was 844 against 903 in July. In Canada alone there was a total loss of \$725,806, of which the insurance companies had to bear \$309,000. The special loss footed up to \$434,300, and by them the companies suffered to the extent of \$230,500. All of these figures figure to Canada show a considerable increase over the previous year. So far as an exhibit was anticipated. The dry weather of that month, and the reckless underwriting, especially of the younger companies, could hardly result otherwise.

THE YORK JUDGEMENT.—The *Mail* says:—"The case of *York v. The City of York*, which was argued by Mr. Kenneth McKenzie, C. C., has been offered, and has accepted, the County Judgeship of York."

COY FISHERIES.—Advice has been received from the Magdalen Island until yesterday. The weather during the past week had been remarkably fine and favorable for the cod fishing. Fishermen have been doing well at Amherst and Grindstone Islands.

RAILWAY TRAFFIC.—The Grand Trunk Railway traffic returns for the week ending Sept. 16th, are: passengers and mail, \$79,692; merchandise, \$110,812; total, \$190,511, being an increase of \$10,178 over the corresponding week of 1875.

THE QUEBEC LOAN.—The *Montreal Star* says:—"A cable despatch announces that the Quebec Railway loan has at length been placed upon the Stock Exchange list, all opposition to it having been withdrawn. This was the result of the fact that the loan which was expected from the first by this who knew anything about the business. The loan is an unexceptionally good investment, and the showed men of the money market having been shown the hollowness of the opposition created for personal and possibly, political purposes, have adopted it."

THE NORTHERN RAILWAY COMMISSION.—A Toronto report says:—"It is understood the Northern Railway Commission has for the present concluded its enquiries, to the absence through illness of F. W. Cumberland, Manager of the Northern Railway, who is the person most directly concerned in the investigation. It is considered improper to examine witnesses until he is able to be present. The Commission have therefore decided to send to the Government an interim report, which it is expected will be printed, that they may resume the investigation at a future time."

HILL GATE EXTENSION.—A New York paper says:—"Pilot-Commissioner Blunt was interviewed on Monday regarding the results of Sunday's survey of the shoal, that over 200 feet of the shore line have been swept away, thus adding more width to the current to move in. The triangular reef has been discovered, and over 300 feet, diminishing the velocity of the current by increasing its breadth. The present channel between Flood Rock and Hallett's Point is about 600 feet wide. General Newton proposes to extend the Flood Rock to 24 feet at low tide, so as to permit the passage of the larger vessels, which now goes over the bar. The water on Diamond Reef is now only nineteen feet, and it is proposed to blow this away so as also to give a depth of 24 feet at this point."

A half-ton of strawberries leaves shipped from Toronto on one day recently to a firm in Toronto for the manufacture of strawberry jam. The strawberries were of a fine quality, and were all picked by hand, and the growers had considerable difficulty in collecting the quantity required owing to bush fires.

News Condensed.

—A tooth of mummified man has been discovered in Peru.
—New Zealand employs Chinamen in the harvest fields.
—Mails from Savannah City are stopped, to prevent the spread of cholera and army worms are laying waste the Mississippi valley crops.
—Three prisoners escaped from the Montreal penitentiary on the 25th inst.
—A large number of men have left Ottawa for the lumbering districts.
—The fall session of the Toronto Normal School was opened on the 25th.
—Several sales of sawn lumber were made in Ottawa on the 25th to American buyers.
—A discovery of silver and gold in the mountains of North Mountain, Portland Lake.
—Gungary, Stormont and Dundas are thinking of testing the Dunkin Bill all at one blow.
—The frigate *Albatross*, with Lord and Lady Dufferin and suite, arrived in San Francisco on Sunday.
—A fire in Kingston on the 25th inst., destroyed a large amount of lumber, owned by Mr. McIlroy.
—"Get your sweetheart a new set of teeth as a Christmas present," is the invitation of an advertising dentist.
—The London Stock Exchange have appointed Friday as a special settling day for the marking of the Quebec Loan.
—Three Prince Edward hotel keepers, for selling liquor contrary to law, were on Friday last fined \$20 and costs each.
—The arch which supports the Boston bridge over Charles River is the largest in the world, with one exception.
—Wild pigeons are so numerous in the timber along the Iowa river, in Hardin County, Iowa, as to be a nuisance.
—The *Williamsport* (Pa.) *Gazette* says there are less eggs in the Sasquehanna boom and above it in the river to make 20,000,000 of eggs of lumber.

—Tupper, who was acquitted for the murder of his wife in Iowa, was subsequently arrested on a charge of manslaughter, and remanded. Rail was refused.

—Our firm in London have shipped this summer 2,500 barrels of eggs to New York. They have eight car loads now in their cellars waiting for shipment.

—At the late fair competition at Washington, 500 yards, the highest score was made by Fenton, of the Irish team, with 48 out of a possible fifty.
—Much suffering is reported from Puerto Principe, formerly one of the richest cities of Cuba. Four thousand rations are being distributed weekly to the poor.
—The Sioux Commissioners are endeavoring to make the same terms with the Spotted Tail Agency Indians as they made with those at Red Cloud Agency.

—The *Mark Lane Express* signals a decline in area of wheat plantings for the year 1876, and says:—"England will sow 15,000,000 quarters during the coming season."

—Port Colborne is spending \$125,000 on harbor works this season, and \$90,000 on the erection of over 30 new buildings. These are signs of evident prosperity.

—The Russian Government will allow no Protestants to be established within its dominions. Since 1824 six such missions have been opened, but have been broken up.

—Large consignments have been made to foreigners by the Chinese Government. Agents, who have pledged itself to give "ample compensation" to Mr. Margery's family for his murder. Commercial grievances are to be rectified, and several ports will be opened.

—A block in the carrying trade on the lake has occurred. There is a large accumulation of grain in the Toronto elevators, and shipowners are demanding two cents per bushel to the lake ports, and the merchants refuse to pay more than one cent and a half.

—The supply of India-rubber is said to be inexhaustible. Each tree can be tapped for twenty successive years, and yields from an average three tablespoons a day. 43,000 tonnes of these trees have been counted on a tract of land thirty miles long by eight wide.

A SUI SETTLED.—The final act in the somewhat celebrated case of McLean vs. Dunn was enacted in the Court of Queen's Bench on the 26th. It will be remembered that McLean sold the Mercantile Agency firm of Dunn, Wiman, & Co., for damages sustained as the plaintiff alleged, through neglect on the part of the Agency to give him proper information of the business standing of one Wilson, who at that time occupied a store on Kingstreet in Toronto, as a boot and shoe maker. Wilson was supplied by McLean with goods amounting in value to over \$500, and shortly after receiving them absconded, leaving comparatively no assets. Last fall a verdict was recorded for McLean to the amount claimed, which the defendant applied to have either reduced or set aside, and this application was yesterday refused by the Court, thus confirming the original verdict.

THE BRITISH COIN TRADE.—A cable despatch says:—"The *Mark Lane Express* in its weekly review of the British coin trade says:—"The publication of the agricultural returns for 1875-76, enables us to form a reliable idea as to the yield of home crops, and the extent to which the demand dependent upon foreign supplies. These returns show a decline in the area of wheat planted of 378,000 acres from last year, and in 1876, the decline from last year, however, may be made up in an increased yield of acre and improved condition. The yield of the present season is estimated at 10,000,000 quarters. With 800,000 quarters deducted for seed, there will remain 9,800,000 quarters for consumption. England will require in the coming year about 13,000,000 from stocks on hand and foreign importation, because of the deficiency in the home supply. Much interest is centered in the American crop. The week closes with the local trade very steady but without great animation, as buyers are not so much with much caution. Supply and demand at this moment are pretty evenly counterbalancing each other. Fine white wheats realize on an occasional sale of a shilling per quarter, but enquiry has not been so good. Feeding stuffs are held firmly. Barley, oats, and maize have improved in price. Wheat by the cargo trade is quiet but steady, and maize and sorghum very firm, but some cases rather higher prices have been obtained."

Have You?

Have you got pimples on your face? Is your tongue coated with a thick yellowish brown fur, or does your breath smell bad, when you get up in the morning, or have you nearly always got a bad headache? If so, you are bilious, and ought to use without delay, *Sutter's Great Mountain Restorative*.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The left edge of the page is bound, and the overall tone is a warm, off-white or light beige.

LINEN GLACE.

It is a scientific combination of several of

the best articles known for laundry use.

Combines really with the Starch.

Makes ironing easy by preventing the iron

sticking.

Gives to all fabrics a pearly finish.

Prevents discoloring.

Can be used in cold or hot Starch.

Invaluable in doing up all this goods,

such as Lawn Drapes, Muslins, Cambrics,

Laces, etc.,—increasing the strength of the

fabrics.

Infants clothing can be splendidly done up

with "Linen Glace" to the great benefit of

all fabrics which keep clean much longer

than when absorbed of the Starch.

Try it once and you will be convinced that

Circulars, in the highest of the market.
